¹ Results of PEIs with less than 10 respondents are not published as there are too few economically active fresh graduate respondents for the data to be meaningful.

² Response rate refers to the percentage of graduates from full-time degree programmes in PEIs who responded to the survey.

³ Results of PEIs based on a small sample size of fewer than 30 full-time fresh PEI degree graduates may not be representative of the institution's graduate employment outcomes. Users should exercise caution in interpreting the data.
